RE: Berry's Creek

Gentlemen:

I would like to summarize where we stand as a result of our last SAC meeting, in preparation for our informal discussions at the TAG meeting next Tuesday, March 29, 1988, at HMDC and to update the other SAC members.

MORTON THIOKOL

We note that MTL and DEP reached agreement on Section 10.3.B.1 at the last SAC meeting (#10).

We have received the proposed rewrite of the "hydraulic" section, Section 10.3.B.2, and have it under review.

VELSICOL

Mr. Hanson offered to finalize the version of the RFP scope of work, Section 10.0 through 10.3A.10 according to our agreed upon changes. Can we expect to receive this at the TAG meeting?

We have not received Velsicol comments on the remainder of the scope of work, Section 10.3.B.

Please advise also if Velsicol is in agreement with the "hydraulic" section rewrite proposed by Morton Thiokol.

We have yet to receive a response to our March 10, 1988 letter regarding the installation of the fence at the tide gate. This action is long overdue, and the Mayor's office continues to inquire.

451568

NEXT SAC MEETING:

Project Manager Joe Maher has been in contact with Bill Weddendorf and George Harvell. April 12 and 19 have been set as tentative dates. Please advise as to final availability at the TAG meeting. We note that this includes more than the minimum time requested by Velsicol between receipt of WES results and resumption of SAC discussions to authorize the RFP.

Joe Maher has not yet received the transcripts for the last SAC meeting. These will be requested again from the vendor.

If there are any questions on these matters, do not hesitate to call me at (609) 633-6801 or telax # 633-2360.

Sincerely,

*Merry L. Morris*

Merry L. Morris, Chairperson  
Berry's Creek Action Committee  
Assistant Director, DHSM
